

Number of Nuclear Warheads in Inventory of Select "Problem" Countries, 1945-2014

Non-proliferation measures haven't stopped some countries from pushing for and even expanding nuclear arsenals.

Number of Nuclear Warheads in Inventory

Country China India Israel Pakistan

Data: Federation of American Scientists.

Qualifier: Most onlookers believe DPRK has around 20-40 warheads as of 2016.

Source for that estimation: <https://www.wsj.com/articles/china-warns-north-korean-nuclear-threat-is-rising-1429745706>
